

## Screen Recording Biteable Video Clips

Biteable video clips can't be downloaded from free version. Instead you can capture the clip using a screen recording app such as Screencastify. You can also record your clip using PowerPoint.

### Screen Recording Using PowerPoint

Step-by-step instructions at: <https://support.office.com/en-us/article/record-your-screen-in-powerpoint-0b4c3f65-534c-4cf1-9c59-402b6e9d79d0>

### Screen Recording Using Screencastify – see Video

Screencastify is a Google Chrome extension that can be added for free.

<https://chrome.google.com/webstore/category/extensions>

1. Add extension to Google Chrome
2. Click on extension next to web address
3. Go through set up and accept permissions
4. Select begin to record
5. Play the Biteable video while recording.
6. Stop recording when animation is finished
7. Download recording as an mp4 clip
8. Insert MP4 into PowerPoint
9. Crop out rest of page of video using format video
10. Trim video to just desired recording using playback
